

RESEARCH ETHICS COMMITTEE (REC) MONTHLY SEMINAR SERIES 2022-2023

Research Ethics - Lecture series 2

As part of research, to make scholars, post graduate students and final year BSc psychology students familiarize with research ethics and good practices our research department has started an extension series on Research Ethics. One hour lecture on Scientific Misconduct was carried out as part of this extensive lecture series. The session explained with violation of the standard codes of scholarly conduct and ethical behaviour in the population of professional scientific research. Plagiarism and research ethics was also briefly explained.
