

Community Extension Program

Post Graduate and Research Department of Psychology at Prajyoti Nikethan College, Pudukkad in association with Government Vocational Higher Secondary School Pudukkad, conducted a Learning Disability Orientation to the Students of Vth & VIth as a part of community extension program on 3/01/2023 Friday. The program has been coordinated by Dr Soumya Starlet C T and the team has led by Fathima Dilsha, 1st year MSc psychology student. Community extension work has been undertaken by the 1st year MSc psychology students, had given a learning disability orientation to the children

The orientation has started by establishing a rapport with the children and the session followed with a brief awareness on learning disability. The 1st year post graduates have conducted 'THE DYSLEXIA SCREENING TEST-Junior India Edition' developed by Dr Angela J Fawcett and Prof Rod I Nicolson, for 13 students.

The need and aim of this community extension program is to understand and discover the learning disability among students and to provide additional teaching and support. This test assesses the reading and writing skills, postural stability, memory span, verbal and semantic fluency.

The following MSC 1st year Clinical Psychology students handled the program.

1. Aishwaki B
2. Aleesha Joy
3. Aneesha Sulthana S
4. Anjana P
5. Dona Joji.
6. Faheema Farhath N P
